MEMPHIS FIRE BARBEQUE COMPANY

OUR Story

REAL DEAL BBQ

EST. 2010

At Memphis Fire Barbeque Company, we want to make you feel like you are somewhere unique, but still like home. We are fearless champions of cuisine from the 1950's and 60's, the Southern US and from our collective childhoods.
The reason is simple. This is the food we grew up on, fell in love with and it is all from a time when food was created with integrity, passion and care by talented cooks. In that era, no matter where you ate, the food didn't come from a lab, a bottle, a freezer case or designed to be shelf stable for 2 years.

We are a collective of professional Chefs, Cooks and Servers who are dedicated to making sure honest food is served to our guests every day. From scratch isn't just a buzzword, it's an obsession.

We prepare our own meat, create all our stocks, sauces and dressings and work with local artisan bakers to ensure we give you the freshest food offerings possible.

It's not fast, efficient or trendy, we just call it sharing the love of food that was instilled in us from our Grandmothers, Mothers and Families; all made with love and a sense of hospitality that needs to be protected, encouraged and shared with you, our guests.

Steve, Lori, Linda & Stan Popp

EVERYTHING YOU SEE HERE STARTED WITH

JET SET SPICE COMPANY

By 2003, our little family business offering hand-blended Chef inspired spices, marinades and dry rubs had been founded on the desire to offer consumers something they didn't have available. Gourmet spice blends that have no salt, no gluten, no additives like MSG and no free running agents. In the marketplace we are unique because we choose to sell quality over quantity, a signature thought that speaks to how Chefs Steve & Lori Popp approach everything they do.

Memphis Fire Dry Rub was the very first product we developed. It was the result of hours of blending, testing and tweaking that inspired the food you're about to enjoy.

All of the Jet Set Spice products feature the same professional testing and commitment to quality, and include a basic recipe and full ingredient disclosure on the back of the package.
We believe in our products, we use them everyday in our kitchen, and now you can use them in your kitchen, for trusted results.

ALL THE SKILL IN THE WORLD ISN'T ENOUGH WITHOUT THE RIGHT SMOKER

The heart of Memphis Fire Barbeque Company is our Ole Hickory Pits model SSE smoker.

It's a thing of beauty, and a sight to behold when it's full of delicious barbeque. It can hold over 500 lbs of meat at one time, and runs 24 hours a day, 7 days a week. It's not a marvel of modern technology, it doesn't have all the bells and whistles, and that's how we like it. Just...

SEASONED MEAT + WOOD SMOKE = AMAZINGNESS

We hope you enjoy our Authentic Southern Barbeque

ALLERGIES?

Every care is taken to avoid any cross contamination when processing a specific allergen free order. We do however work in a kitchen that processes allergenic ingredients and do not have a specific allergen free zone. Wheat and gluten ingredients which are deep fried will use the same fryers in our kitchens as dishes not containing these ingredients - there may be risk of cross contamination which may therefore affect extremely sensitive sufferers. To reduce the risk of contamination from allergens during preparation there are controlled procedures in the kitchen.

In keeping with the City of Hamilton's municipal health code, under no circumstances are food and beverage items prepared in an unlicensed and non-publicly inspected facility allowed in these premises.
